

WORKSHOP
for
Application of Chinese Medicine to Psychological Problems

The World Federation of Chinese Medicine Societies and Chinese Medicine Psychology Committee present this wonderful opportunity for you to discover the therapeutic effects of Chinese Medicine on various kinds of psychological problems.

This workshop will bring you new understandings of the methods and effectiveness of treatments for psychological disorders using Chinese Medicine, especially non-medicinal treatments, such as Qigong, Remedial Massage, Acupuncture, Taichi and so on. It will lead you to the frontiers of the western and eastern integrated treatment methods for psychological problems.

There are a wealth of knowledge, theories and rich clinical experiences recorded over the long history of Chinese Medicine's treatments for psychological problems. The theory of "Physical and Mental Condition Theory" and "The Theory of Emotional Factors in Physical Illness" have had wide clinical applications over hundreds of years.

We are confident that this workshop will open up an exciting new page of learning that encompasses both ancient wisdom as well as new applications.

Topics of the Workshop:

(With total of 3 hours in length)

Session I: Presentations (120 minutes with total of 4 presenters)

1. Development of Chinese Medicine Psychology with 20 years of history (Presented by Prof. Wang Miqu)
2. Systematic Therapy in Chinese Medicine Psychology (Presented by Prof. Wang Weidong)
3. Chinese Medicine Psychology for Treatment of Hysteria, a strategic approach for both the body and mind (Presented by Prof. Ng Siuman)
4. Psychological Etiological Factor of TCM and Treatment New Thought (Presented by Dr. Huang Santeh)

Break (10 minutes)

Session II. Brief Introduction to Ba Duan Jin: A Traditional life-cultivation

Qigong (20 minutes)

Session III. Demonstration of Ba Duan Jin and relaxation (30 minutes)

You are cordially invited to attend this special workshop within the timeframes of WCCM 2009 to enrich your learning experiences in Chinese Medicine psychology.

Organised by CM Psychology Committee,
The World Federation of Chinese Medicine Societies
